This guide introduces you to the information that is available to help you navigate the exciting world of international trade.

STARTING UP AND RUNNING AN IMPORT BUSINESS

Before you launch into the import business, we recommend you download the Importing Business Sourcing Guide at www.smallbusinessbc.ca/pdf/importing.pdf. This detailed guide provides information related to importing, regulatory and legal issues, funding and financing, contacts and directories, market data statistics, import how-to seminars, and educational programs.

If you are going to import goods, you will need to register with the Canada Border Services Agency (CBSA). You can do this through the OneStop Business Registry at www.bcbusinessregistry.ca/registrations.htm.

The CBSA's website, www.cbsa-asfc.gc.ca/import/menu-eng.html, offers useful tools tailored to small- and medium-sized businesses, including Importing: A Step-by-Step Guide, www.cbsa-asfc.gc.ca/sme-pme/i-guide-eng.html, which will help demystify the process for importing commercial goods into Canada. It is designed to help people who have never or rarely imported before, guiding them through the necessary steps for complying with the various laws and regulations.

CBSA also offers import-related seminars and events – go to www.cbsa-asfc.gc.ca/events-evenements/menu-eng.html and click on "British Columbia." Here you can sign up for e-mail updates on CBSA programs for importers.

ASIA PACIFIC INITIATIVE

The 2007 launch of the Asia Pacific Initiative marked our government's commitment to strengthening British Columbia's competitive position as the preferred economic and cultural gateway between North America and the Asia Pacific region.

For small businesses in British Columbia, the path to a stronger, more vibrant relationship with Asia begins in our principal strengths – our strong and open economy, unique geographical location, spectacular natural environment, and diverse, multicultural community. Today, we are building on those strengths by:

- > Providing support to British Columbia businesses through the Asia Pacific Business Centre in Vancouver and our global network of nine international trade and investment offices; and
- > Making key infrastructure investments in our ports, rail, and roads to move people, products, and services to their destinations more quickly and efficiently.
